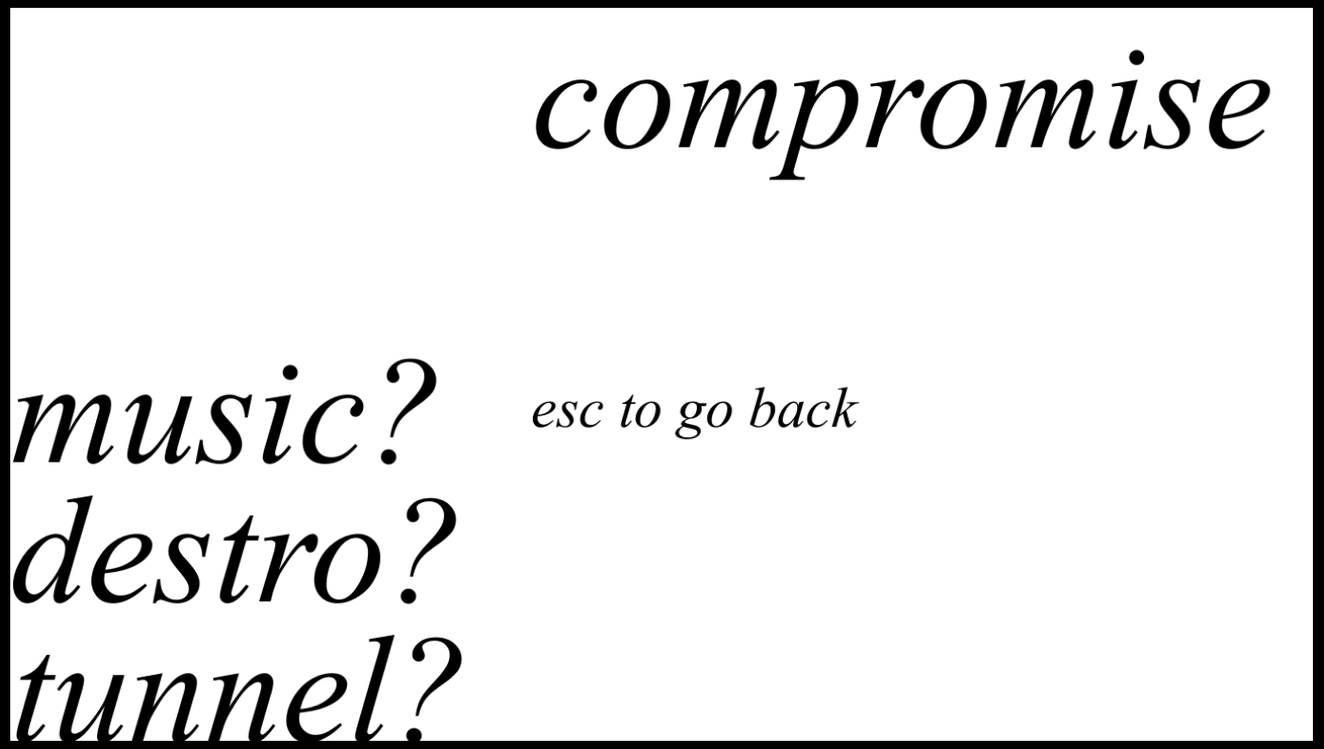
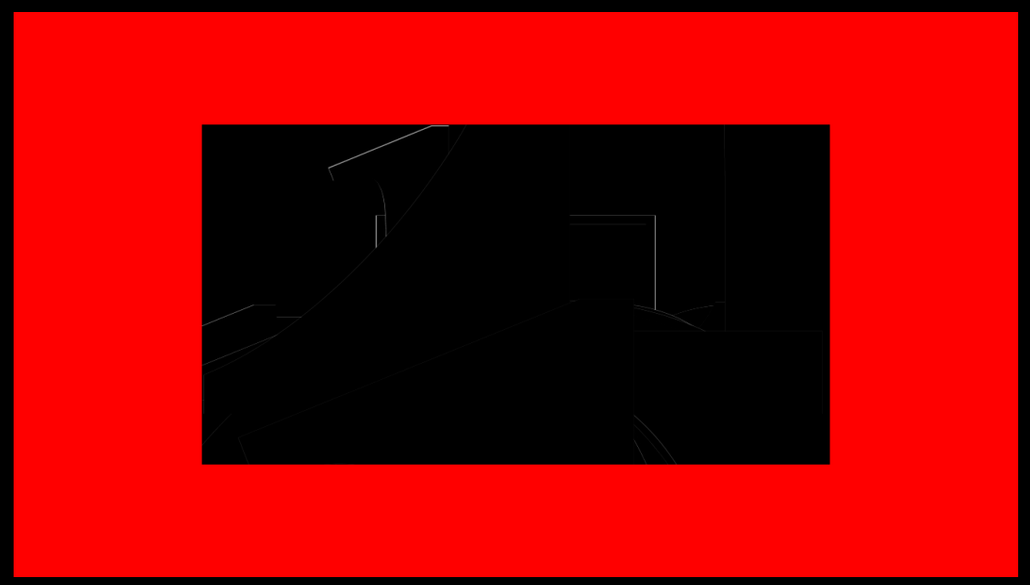
Design

Through Domenick Propati's Ideation & Prototyping course and Jesse Seeger's Visual Foundation Studio I have learned and applied Lean UX methodologies from concept to iterative prototype.

Personal Website

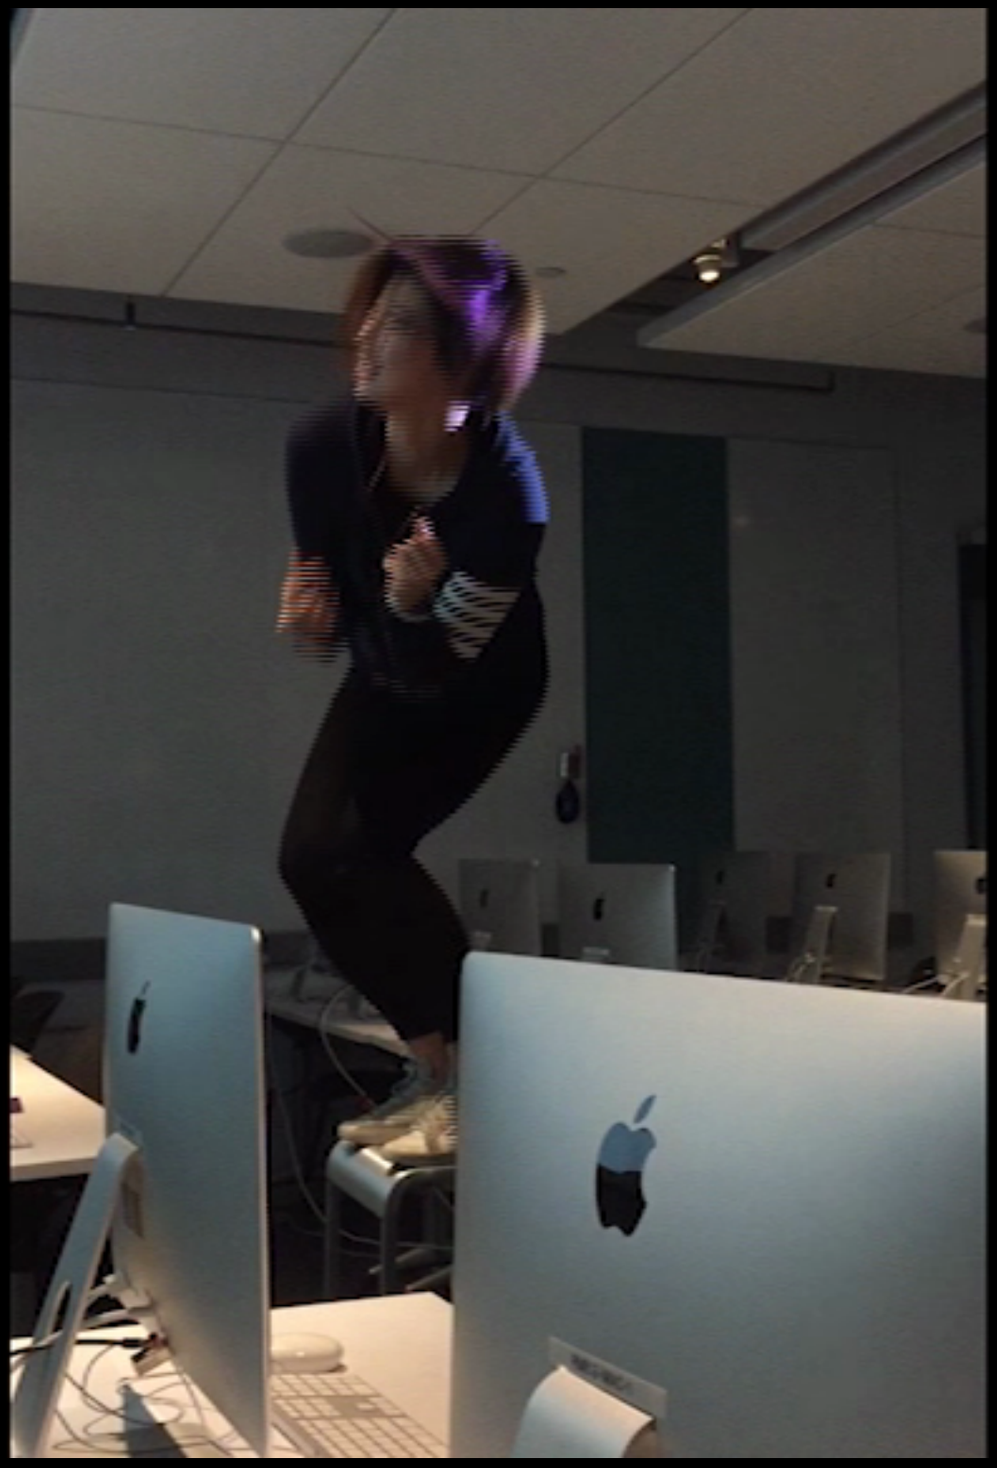


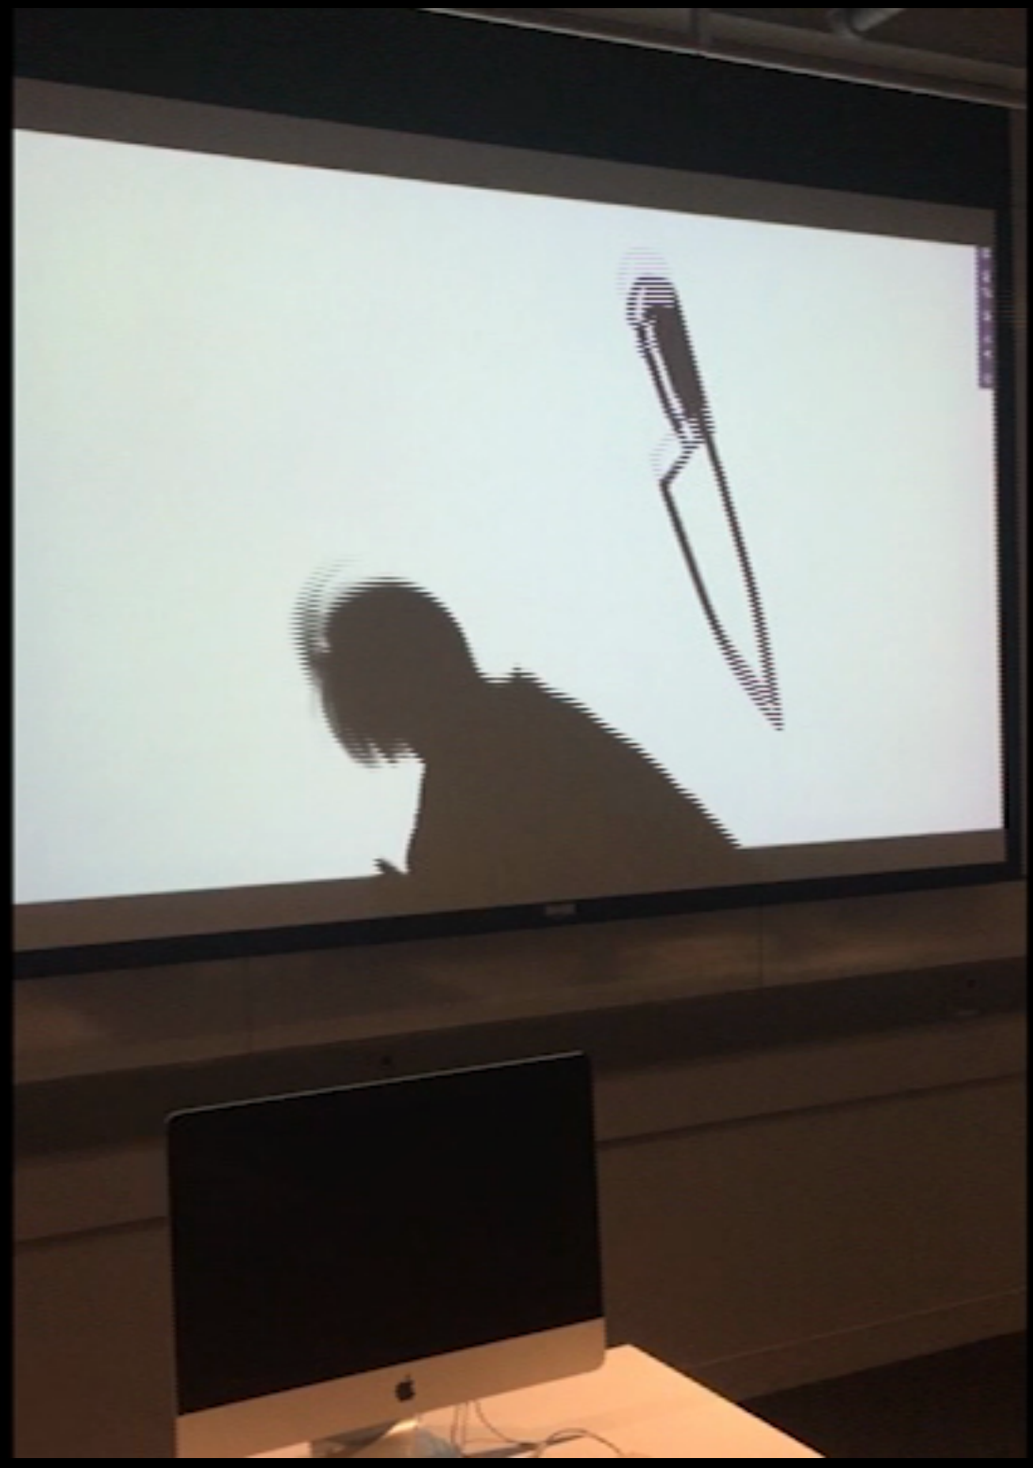


text thing

series of experiements with text input

available at https://github.com/SpiderRumor/CC_Nathan/wiki/Final-Project-Documentation





Still from Kinect Prototype
Part of a series of prototypes developing the same concept onto mobile, console, and VR

Social Media

My social media presence consists largely of experiments with the medium. This manifests itself design-oriented approaches to common content.
